Art Unit: 3652

1. The abstract of the disclosure is objected to because of the presence of the legal phraseology "means" in lines 1, 2 (three occurrences), 3, 5 and 6. Correction is required. See MPEP § 608.01(b).

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 is grammatically unclear.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-14, 16 and 17 are rejected under 35 U.S.C. 102(a) as being anticipated by Hettegger.

Hettegger shows a lift device including passenger carrying means 1, linear guide means 2, transporting means which moves the carrying means 1 along the guide means 2 and attachment means 3. Re claim 14, note that Hettegger's guide means 2 slides along attachment means (guide rail) 3 and rotates relative thereto by the action of piston/cylinder units 21.

Art Unit: 3652

6. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The cited prior art shows lift devices.
